**HAFCO VACUUMS ARE
CERTIFIED FOR USE IN HAZARDOUS LOCATIONS**

Electric powered vacuums can potentially create static electricity that are hazardous in locations with combustible vapors and dust conditions. **HafcoVac vacuums operate on compressed air** and are **intrinsically safe** to meet all **NFPA and OSHA housekeeping** requirements.

Ease of use combined with peace of mind as HafcoVac Vacuums are economically priced and carry a Lifetime Warranty

HAFCOVAC AIR-POWERED VACUUMS

Our compressed air powered vacuums are designed specifically for heavy-duty industrial cleaning and material recovery. By utilizing your compressed air lines, the simple Venturi system provides up to 6x the suction power generated by conventional motor-driven units, all without the need for an electrical connection. They are certified, safe, strong, portable and easy-to-use.

The high powered Venturi driven suction power will enable you to pick up virtually anything that will pass through the hose.

CERTIFIED EXPLOSION-PROOF VACUUMS

HAFCO Vacuums are ATEX cn 2, Groups A, B, C and D T6 and Class II, Division 2, Groups E, F, G, Hazardous Locations as defined in the National Electric Code (NFPA 70). Designed and built to the highest standards, our vacuums also carry a lifetime warranty.

FOR USE IN A VARIETY OF INDUSTRIES

Our vacuums are certified to operate in a variety of conditions across many industries including:

- ▶ Wood, Paper & Pulp
- ▶ Metal Dust
- ▶ Food, Flour, Sugar & Grain
- ▶ Powder Coat
- ▶ Oil / Gas

CHOOSING THE RIGHT VACUUM

► Same Day Shipping on All Units

A general guide to choosing a HafcoVac Vacuum is by determining the available airflow (CFM). Using this simple formula it is easy to see what your facility has available to select the right vacuum.

$$\text{Compressor Horsepower} \times 4 = \text{CFM}$$
